Dear Parent/Caregiver,

Re: Review of non-mainstream settings – survey for students

The Department for Education wants to ensure all children and young people have a good experience of learning and feel included. They have asked Deloitte Access Economics to conduct a Review to understand what makes a positive difference for students and families, and if anything can be improved.

This survey will tell us about what children and young people have experienced, what they want from education, and their hopes for the future. We want to know what children and young people think the service is doing well and how it could improve.

How will students complete the survey?

Teachers will arrange for students to do the survey during class time. They will be asked if they would like to participate and are free to withdraw at any time. **If you do not want your child to participate, please contact the school as soon as possible after receiving this letter.**

The student survey will be open until 17 October 2025. Participation is voluntary.

Will students' information be kept confidential?

What children and young people say in the survey will be used in the Review to share experiences of students and families. Their name will not be used in the report as the project team will anonymise all responses (for example, they may say that a finding came from 'a student').

Full responses will be kept by the Review team and only the Review team will be able to see them.

What will happen if a student does not want to participate?

Teachers will inform students that:

- it is not compulsory to take part in the survey.
- students can skip individual survey questions if they wish.

Students who would like to speak to an adult about any concerns they may have will be supported to do so.

Where can I get more information?

If you have any questions about this survey or the Review, you can email the Review team at SAEducationReview@deloitte.com.au or the Department for Education at Education.SchoolsandPreschools@sa.gov.au.

Yours Sincerely,

John Leondaris
Principal
